This basic schedule pattern is what I plan to follow each Month.

I will be gone on special Holidays ,as needed.

On rare occasions, something may come up that will keep us from being in the Mill, so I encourage all of you to call ahead to make sure we do not miss each other. (Cell -402-659-7652)

Remember! I am always pleased to see new workshop members, and share fundamental, as well as unique information about blades and other skills to increase your scroll saw enjoyment.

I am always pleased to see the friends I have made from previous classes.

I will help you with any advance cutting skills you may wish to pursue, and set up special classes for specific needs you may have to create your future projects.

Keep in touch -- Stop by the Mill the next time you are in Branson -- See you soon.

Gaylen M.
